To the amount expended from appropriations should be
added fund arising from the sale of Ohio Reports

\$700 77

Expended from appropriations

1,765 71

Total expenditures for the year ending Nov. 16, 1860

\$2,466 48

The objects of these expenditures were :

For books, magazines, and newspapers	\$1,239 18	
For binding and stamping	385 31	
For contingent expenses	841 99	
		<u>2,466 48</u>

Of these expenditures the amounts arising from Ohio Reports Fund were :

For purchase of books	\$203 56	
Binding and stamping	385 31	
Contingent expenses	111 90	
		<u>700 77</u>

The expenditures have been, chiefly, as during the last four years, for books of permanent value, and for binding.

By means of an administrator's sale of the library of James McBride, late of Hamilton, Butler county, Ohio—a pioneer who took active and intelligent interest in the early history of the State—two hundred and three volumes were obtained which largely enhance the value of the alcoves set apart for legislative and local history.

The number of exchanges is not as large as it was in 1859, but the number of

donations is unusually large, owing to the fact, that by a personal visit to Washington City, the Librarian was enabled, through the aid of Senator Benjamin F. Wade, to procure from the Federal Government a considerable number of the volumes which were needed to complete sets of United States Documents. Arrangements have been made by which, it is confidently expected, the volumes yet wanting will be secured, together with full sets of future publications of the Government.

Having responded to a request for Ohio Laws and Documents, preferred by an American Library Association, recently organized in London, the Commissioners forwarded to the British Museum, in care of the U. S. Consul, (who is President of the Association,) the Laws and Documents under the second Constitution, and requested him to petition in the name of the State of Ohio for such documents as the government of Great Britain donates or sends in exchange to public libraries, including the Patent Office Reports, of which there is no complete set in our western country, and which would be of great value in Ohio. These Reports have been presented to the public library in Boston, Massachusetts, and have been received in exchange at the State Library of New York, and will not probably be refused to Ohio.

No exchanges have this year been received from France, but correspondence with M. Vattemare gives assurance that valuable accessions from that source will be received the ensuing year.

The Smithsonian Institution at Washington kindly undertakes to forward State Documents to Europe for exchange with government and society libraries, and we have determined to avail ourselves of its generous assistance.

The exchanges of this Library have become so valuable it is important that they were duly recognized. Partial exchanges with the States were begun soon after the Library was established, but no regular system was authorized until the passage of the act of March 6th, 1845, by which the Board of Commissioners, then created, was required to "direct the Librarian to exchange statutes, journals, Legislative documents and other books with other legislative bodies and libraries, as they shall deem proper." By a resolution adopted in 1846, the Governor was authorized to send reports of the Supreme Court to other States. Exchanges under this authority were made by the Executive and through the Secretary of State's office, until 1857, when the Librarian took entire charge of that business, and has since annually made report of the number of volumes added to the library by means of it.

In 1858 the number of volumes added was	555
1859 " " " "	943
1860 " " " "	188
Total	1,686

Many of these works, of peculiar value, could not have been otherwise obtained. The Librarian has been dependent upon the courtesy of officers of State and of the Legislature for the books necessary in the prosecution of this branch of his duty, and has sometimes been deprived of important documents for the want of a surplus over the number those officers were required otherwise to distribute.

We therefore recommend such amendments of the laws and resolutions for the distribution of statutes, documents, and journals, bills and reports as will amply supply the Library for the purpose now being considered.

Attention is invited to the relations of the Law Department, separated as it now is from the General Library. Greater responsibility than exists, under the law, is necessary on the part of the Messenger of the Supreme Court, who, by general understanding, has charge of the law books. He ought to give bond for the care of the property entrusted to him, and should be made responsible to the Library Commissioners for the observance of such rules as they adopt for its safe keeping.

The propriety of forbidding the taking of law books, except by the Judges of the Supreme Court, away from the State House, or the use of them outside the Court rooms by any person not a member of the Legislature or a State officer, is respectfully suggested.

The shelving, for which an appropriation was made last year, was constructed under the direction of the Superintendent of the State House, and is entirely occupied. It serves only as a temporary expedient, and the demand for shelf room is now more pressing than it was in 1859. The number of volumes added to the Library each year since 1853, is here stated :

1854-55.....	3,454
1856.....	1,029
1857.....	908
1858.....	697
1859.....	1,661
1860.....	1,404
Total.....	9,153

The Library was removed to the present Hall in January 1858. The number of accessions since that time is 3,762. Even without the accession of any volumes except such as may be expected in exchange or by donation, or such as are made by the binding of newspapers, periodicals, and pamphlets, (as required by law), it will be impossible to take fit care of the volumes which will be added in 1861, without removing from prominent shelves books which ought not to be thrown into a store room. Among the volumes now necessarily kept in the store room, are the regular sets of the journals, laws, and documents of Congress.

These facts in connection with the fact that the Library, as now exposed, is subject to abuses which no vigilance can entirely prevent, afford good reason why the Library Hall should receive the permanent shelves designed for it by the Architect of the State House last year, and then approved and recommended by the State House Commissioners, as well as by the Library Commissioners.

Attention is respectfully called to the estimates for finishing the Library Hall given this year in the report of the Superintendent of the State House, and members of the Legislature are earnestly invited to visit the Library for the purpose of observing the necessity to which attention is now directed.

Should it be deemed expedient to order the construction of new alcoves, liberal appropriations ought to be made for the preparation and printing of a Finding

Catalogue, and for enlarging important departments of the Library now comparatively meager, among which are the political, local-historical, agricultural, mechanical, and scientific, the latter including practical as well as theoretic and occult science. The petition of the Ohio State Medical Society, printed with our Fourteenth Report, is an index to the demand for such an appropriation in one branch of science

It may interest the Library Committees to compare the expenditures of prominent States of the Union, in 1859, for State Libraries, and examine statistics of their growth.

Libraries	Instituted	Expenditures in 1859.	Accessions in 1859.	Whole No. of volumes.
Pennsylvania	1816	\$2,985 08	-----	21,923
Ohio	1817	2,466 48	1,404	22,793
New York	1818	7,277 34	2,922	55,780
Massachusetts	1826	2,736 46	925	14,000
Tennessee	1855	4,106 26	3,711	15,000

Appropriations equal to those of the year now ended, will be sufficient for the next, if it is determined not to finish the Hall

The duplicates of the census returns for 1850, deposited in the Secretary of State's office, were appropriately bound, and are now preserved in the Library, forming sixty-six volumes, which are of peculiar and important service as works of reference. Some legislation may be necessary to make the returns for 1860 equally accessible.

Special thanks are due Joel Munsell of Albany, New York; J. J. Barclay of Philadelphia; J. H. Klippart and A. D. Lord, of Columbus; and M. S. Clapp, Member of the House of Representatives for Lake County, for rare volumes, pamphlets, and scarce reports. Thanks are also due to the proprietors of twenty-two weekly, one tri weekly and five daily papers, which have been sent gratis to the Library the past year.

A statement of the accounts of the Library for the fiscal year, a catalogue of donations and exchanges, together with a record of accessions and expenses, from 1817, when the Library was instituted, till 1861, is presented herewith, in an Appendix, to which an Index is given on its last page.

WILLIAM DENNISON, Governor,
ADDISON P. RUSSELL, Secretary of State,
WILLIAM T. COGGESHALL, Librarian,
Library Commissioners.
