LIBRARY COMMISSIONERS' REPORT.

COLUMBUS, OHIO, November 16, 1886.

To the General Assembly of Ohio:

The Commissioners of the State Library, in compliance with the requirements of the law, submit herewith their annual report for the year ending November 15, 1886.

An effort has been made during the past year to add very considerably to the department of Western history, and to bring several other important lines of literature up to the present date by the purchase of the latest volumes attainable.

An effort is being made by the Librarian to secure a complete file of all the newspapers published in Ohio, in order that a record of current history may be kept at a central point accessible to all persons. The adequate accommodation of these newspapers will require an enlargement of the newspaper room of the State Library, and it is hoped that such an extension will be authorized by the Legislature.

It is also urged that an appropriation for the printing of a supplementary catalogue be made. There has been no printed catalogue since 1882, and the general usefulness of the State Library is seriously impaired by the lack of one containing the books purchased since that date.
